Consultant Specialist (Obstetrics and Gynecology)

University Master in Cosmetic Morphodynamic Surgery

University Master in Cosmetic and Reconstructive Surgery
of the Face

University Diploma in Aesthetic Antiaging Medicine

University Master in Breast Oncoplastic Surgery

ECFMG GMC FMH certified

AESTHETIC ANTIAGING MEDICINE: office settled treatments

PEELINGS which are antiaging treatments for skin cells of face hands and body by *Glycolic Acid, Salicylic Acid, Mandelic Acid, TCA, Brazilian Yellow Peel* and many others, for every kind of skin

BIOSTIMULATION & BIORIVITALIZATION

For face hands and décolleté, by aminoacids, placental extracts, growth factors and vitamins

FILLERS (filling techniques) of lines and wrinkles and furrows by "Jaluronic Acid" *Filler* [we use only reabsorbable but long lasting Jaluronic Acid fillers. Never permanent ones]

MESOTHERAPY: against both the so called girdle hips and legs "cellulitis" (fibrosis) and localized fat bulks, or against leg veins diseases

LIPOFILLING: reshaping (by filling with autologous fat, harvested from the same patient) of face breast and hands, and of legs' holes.

LIPOFILLING is the main source of mesenchymal adult stem cells. It is a transfer of fat cells not stem cells and is an example of modern Regenerative Surgery.

BOTOX treatments for expression wrinkles (forehead frowning, eyes crow's feet) and to lift expression's face muscles, or to treat hyperhidrosis (excessive armpits and hands sweating)

CARBOSSI THERAPY (CO2 Therapy) to lessen legs' swelling and to improve legs' vascular circulation (by a well studied and established action on microcirculation for "heavy legs", together with a recently certified action on legs' cellulitis and fibrosis)

RESHAPING of LIPS and ZYGOMA (malar area) by Jaluronic Acid fillers or by fat lipofilling

P.R.P. (platelet rich plasma) by the use of platelet derived growth factors (PDGF, TGF) from blood of the same patient, to improve stem cells viability and growth

PHOSPHATIDILCOLYNE the so called "chemical liposuction" to wipe out localized fat bulks

MACROLANE a Jaluronic Acid for specialized use to increase volume or fill hollow in buttocks and calves

COSMETIC SURGERY and PLASTIC RECONSTRUCTIVE SURGERY

Surgical operations are performed in
certified private clinics

ABDOMINOPLASTY (TUMMY TUCK)

LIPOSCULPTURE and LIPOSUCTION

**BREAST AUGMENTATION and BREAST REDUCTION
and BREAST LIFT**

FACE LIFT and NECK LIFT

BLEPHAROPLASTY (eyes job)

OTOPLASTY (ears job)

RHINOPLASTY (nose job)

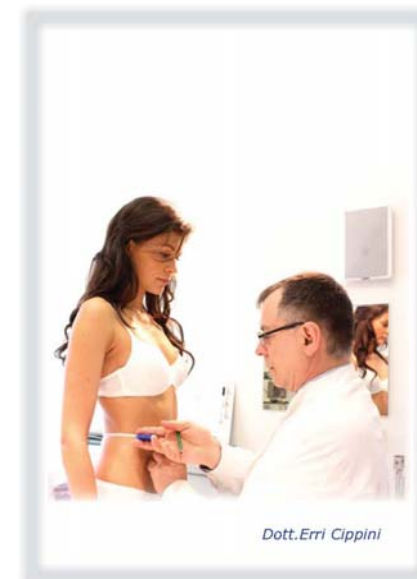

MENTOPLASTY (chin job)

**COSMETIC SURGERY of the INTIMATE
for female:** hymenoplasty (revirgination),
clitoral unhooding, small and large labia
plasties (labia minora and/or labia majora
plasty), vaginal tightening, mons veneris
plasty

**COSMETIC SURGERY of the INTIMATE
for male:** mainly penis enlargement

And, moreover

**OUTPATIENT (office settled) COSMETIC
SURGERY** of simpler cases, always with
anesthesiologist's assistance
