Dear Sirs,

it is a great privilege to give my wholehearted recommendation on behalf of Dr. Erri Cippini candidature for the position of Consultant Plastic Surgeon.

It is a great pleasure to write this letter of recommendation in support of Dr Erri Cippini, whom I have known since 1st March 2012 when he entered my team of Trauma specialists, to present days.

Easily, Erri is one of the most talented, insightful, team-oriented expert fellow plastic surgeon that I have had in my team , and he has also become a real friend of mine and of all the other members of the team.

Mainly, we care of every kind of clinical situations arising in the Accident and Emergency Dept of General Hospitals of Cremona and Casalmaggiore, both of them I rule as the Director, but the General Hospital of Cremona is also the regional hub of south-east Lombardy for trauma with neurosurgical involvements.

Almost immediately, Erri Cippini got a public appraisal on the city's newspaper of 22nd March 2012. And also recently, on 23rd June 2014, I received by email a letter of praise from a patient who, for an emergency performed treatment of a severely injured chest wound with a saw, was treated by Erri with a successful result and, to be underlined and highlighted, Erri got through that surgery even at the end of his twelve-hours day duty, staying on the patients for two more hours.

Also I have pictures of his works on ear and nose reconstruction in emergency situation after trauma accident. Erri also takes care of breast reconstructive (and cosmetic) surgery, having recently completed an up-to-date one year course on breast reconstructive surgery (and he is a fifty-eight year old guy !) so proving his neverending interest in the matter. He also cares of gynecologic reconstruction, having completed two Specialties residencies in his University career.

On the other hand, Doctor Erri Cippini is a real team promoter as he is extremely co-operative and possesses the capability to contribute positively while working as a part of a team.

I strongly believe he will be an excellent addition to every physician's team. His assertive nature, his personal and professional tact, and his emotional sensitivity to patients combined with highly skilled expertise acquired in different hospitals in Italy and abroad make him a highly competent, skilled, effective, and respectful physician.

I deeply believe that patients' needs, comfort, and benefit will drive every decision he will make and each action he will take.

In other words, professionalism, expert mastery, dignity and grace define his style.

Also, I want to underline his natural feeling to make and to maintain good personal relationship even with fresh fellows with the main goal to improve the results of the whole team.

He has always shown enthusiasm for improving service and for working in team with colleagues also of different Specialties, becoming a careful and interested fellow.

For it, it is with great pleasure that I am forwarding Doctor Erri Cippini as a reputable doctor for your consideration.

Cremona, 20/11/2014
