I would like to draw attention to Dr. Erri Cippini, who got his Degree in Plastic and Reconstructive Surgery in my School of Specialization.

He come to our School after a long and reputable career in other Medical fields and became a careful and interested fellow, aquring further knowledge and experience in Italy and abroad.

His technical skills and human qualities undoubtfully make him an excellent Surgeon, so that I am sure he will be able to successfully enter every working environment.
