

CATTEDRA DI CHIRURGIA MAXILLO-FACCIALE  
U.O. Chirurgia Maxillo Facciale e Chirurgia Plastica Ricostruttiva  
Direttore: Prof. Alberto Bozzetti

It's a pleasure to introduce Dr. Erri Cippini, whom I know after having worked with him for many years during his Residency.

He attended his Residency (his second one) when he was not a young doctor any more, after many years of private practice, and I found myself as a colleague and a friend and as his clinical and surgical referee. Ability to work and make patient management decisions on his own initiative came together with his enthusiasm for improving service, also working in a team with professional colleagues both medical and from other disciplines, and all these experiences have made him an excellent Surgeon who can solve different clinical situations.

Nowadays, after many experiences abroad to learn from outstanding colleagues before and after the Residency period, he has gone back to private practice. For his skills and accomplishments, I was pleased to have been his assistant in some important operations in private practice, and I happened to learn from him some new and improving evolutions in technique.

Moreover, his record of academic achievements and professional career history, demonstrates attributes that, I believe, make him a valuable Surgeon.

For it, it is with great pleasure that I am forwarding Erri Cippini as a reputable Plastic Surgeon for your consideration.

Luca Rovati,  
Consultant Plastic Surgeon  
"San Gerardo Hospital" – Monza
